

High School Community Conversations

1. Aspiration

- a. More Community-based events. The community does not interact enough and people need to come together to boost moral
- b. Active community—sports teams
- c. Lively, innovating community—The historic factor of NL is important; however modern improvements to the town can increase visitors and activity in NL
- d. A helping community—more opportunities to help the elders and more opportunities for the young to keep them busy
- e. A more united community
- f. More social, more entertaining and have events/clubs for hobbies and sports. (I also really want us to have a 5K)
- g. Community seen as a hole where the crowd supports all sports teams
- h. More modern and relevant—more opportunities for younger people to do things and be active in the community

2. Changes

- a. Annual event
Something to help out the lower income families.
Some local entertainment—ex. Bowling alley, etc.
- b. Youth sport leagues
- c. Public soccer fields
- d. See what would bring new people to the town—what are people looking for?
- e. Special nights
- f. Some things needed for this change is more funding and more people that agree with these ideas
- g. Berlin is with us?

3. Actions

- a. A better morale in the community where people are willing to help out and care for each other
- b. More activities for school-age children/young adults
- c. Having these nights with good ads
- d. We could have more scheduled communication/events to talk about ideas like this
- e. Good spirit
